SUMMARY

Full-Stack Developer with internship experience building production-grade web applications using the MERN stack and Django. Skilled in developing scalable, user-focused solutions with modern web technologies.

EDUCATION

Vellore Institute of Technology, Bhopal *B.Tech, Computer Science and Engineering*

Sep 2023 – May 2027

CGPA: **9.15 / 10.0**

EXPERIENCE

Full Stack Developer Intern *The Cognitive – Toronto, ON, Canada (Remote)*

Aug 2026 – Present

- Developing and delivering front-end and back-end features for production web applications using React and Node.js in collaboration with the core engineering team.
- Building responsive user interfaces, implementing scalable API endpoints and following industry-standard Git workflows, pull requests, and code review practices.
- Collaborating with a remote cross-timezone team through virtual stand-ups, progress reporting, and regular code discussions to ensure timely feature delivery.

TECHNICAL SKILLS

Languages: Java, Python
Frontend: React.js, TypeScript, HTML5, Tailwind CSS
Backend: Node.js, Express.js, Django
Databases: MongoDB, PostgreSQL, MySQL
DevOps: AWS, Git, GitHub

PROJECTS

Classroom Portal: Full-Stack Educational Platform [\[Live\]](#) [\[GitHub\]](#)

2026

React.js, Tailwind CSS, Node.js, Express.js, MongoDB

- Live platform running a whole digital classroom in one place: teachers assign homework, students submit, graders mark with feedback and parents track attendance, grades and progress in real time.
- Engineered the full homework lifecycle - creation with deadlines, submission and resubmission, grading, a reusable question bank and a resource library - behind JWT authentication and role-based protected routes for 4 roles.
- Automated engagement with scheduled background jobs emailing deadline warnings and new-grade alerts, and shipped as an installable PWA with announcements and teacher – parent messaging.

Pahal Foundation: NGO Web Platform [\[Live\]](#) [\[GitHub\]](#)

2026

Django, Python, MySQL, AWS S3, Razorpay, JavaScript

- Live platform digitising day-to-day operations for an NGO educating underprivileged children, replacing paper records for student admissions, the student database, daily attendance and volunteer enrollment.
- Integrated the Razorpay payment gateway for secure online donations, with payment verification and comprehensive transaction logging.
- Designed and developed role-based dashboards for administrators and teachers, enabling efficient management of admissions, attendance, volunteers and media assets using AWS S3.

Yatra Saral: Full-Stack Train Travel Platform [\[Live\]](#) [\[GitHub\]](#)

2025

React.js, TypeScript, Node.js, Express.js, MongoDB

- Covers an Indian rail journey end to end across 15+ services – seat and group booking with e-ticket generation, live train tracking, platform services (cloak room, coolie, wheelchair), pantry food ordering and travel insurance.
- Secured sign-up with email OTP verification and password recovery, backed by a profile hub for ticket download and cancellation, booking history, saved passengers and favoured services.
- Built accessibility-first for elderly and low-literacy travellers: bilingual Hindi/English UI, read-aloud support and adjustable font sizes, plus trip-planner, budget-calculator and weather tools.

CERTIFICATIONS

- Oracle Certified Foundations Associate - Agentic AI**
- ServiceNow Virtual Internship Program**
- Introduction to Machine Learning**
- AWS Technical Essentials**

Oracle University, 2026

ServiceNow University / SmartBridge, 2026

IIT Madras, 2025

AWS Training & Certification, 2025
