EDUCATION

Vellore Institute of Technology, Bhopal	<i>B.Tech, Computer Science and Engineering</i>	<i>Aug 2023 – May 2027</i>
CGPA: 9.07 / 10.0		
Govt. Model Sanskriti Sr. Sec. School	<i>CBSE Class XII</i>	<i>2023</i>
Aggregate: 80.8%		
St. Thomas School	<i>ICSE Class X</i>	<i>2021</i>
Aggregate: 95.4%		

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript, TypeScript
Frontend: React.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, Django, RESTful APIs
Databases: MongoDB, MySQL
DevOps / Docker, AWS (S3, Educate), Git, GitHub
Cloud:
Core CS: Data Structures & Algorithms, Object-Oriented Programming

PROJECTS

Pahal Foundation — NGO Web Platform	[Live] [GitHub]	<i>2026</i>
<i>Django, Python, MySQL, AWS S3, Razorpay, JavaScript</i>		
- Built and launched a production-grade NGO platform featuring campaign management, donor registration, and an automated donation-receipt delivery pipeline. - Integrated Razorpay payment gateway enabling secure online donations with real-time webhook-based payment verification and transaction logging. - Configured AWS S3 for scalable media storage (images, PDFs, impact reports), reducing server-side storage costs and improving asset-delivery latency.		
Yatra Saral — Full-Stack Train Travel Platform	[Live] [GitHub]	<i>2025</i>
<i>React.js, TypeScript, Node.js, Express.js, MongoDB</i>		
- Architected and deployed an end-to-end train travel platform supporting seat booking, dynamic fare calculation, and automated e-ticket generation with QR-code verification. - Engineered a bilingual (Hindi/English) responsive UI with an integrated trip planner, real-time seat availability display, and an on-board pantry ordering module, reducing booking friction for non-English speakers. - Designed a RESTful API layer with JWT-based authentication and role-based access control, ensuring secure transactions across 3+ user roles (passenger, admin, pantry staff).		
Track My Spend — Desktop Expense Tracker	[GitHub]	<i>2024</i>
<i>Python, Tkinter, MySQL, Pandas, Twilio API</i>		
- Developed a cross-platform desktop application that automates personal expense tracking with category tagging, budget-threshold alerts, and month-over-month analytics dashboards. - Implemented a WhatsApp-based expense logging feature via the Twilio API, enabling users to record transactions through a chat interface with near-zero onboarding effort. - Built interactive data-visualization charts (bar, pie, trend) using Pandas and Matplotlib, providing actionable spending insights with a single-click export to CSV/PDF.		

CERTIFICATIONS

NPTEL Elite — Introduction to Machine Learning	<i>IIT Madras, 2025</i>
Marketing Analytics — Elite + Gold (Top 5%, Score: 97%)	<i>IIT Kharagpur, 2026</i>
Networking Basics	<i>Cisco Networking Academy, 2026</i>
Cloud Computing 101	<i>AWS Educate, 2025</i>
Bits and Bytes of Computer Networking	<i>Google / Coursera, 2024</i>
National Financial Literacy Quiz — Certificate of Participation	<i>NISM & SEBI, 2026</i>

ACHIEVEMENTS & ADDITIONAL INFORMATION

- Earned NPTEL Elite + Gold in Marketing Analytics (IIT Kharagpur, 2026) with a 97% score, ranking in the Top 5% nationally. - Maintained a 9.07 CGPA across B.Tech CSE semesters, consistently in the top cohort tier. - Participated in SolVIT Hackathon 2025 at VIT Bhopal — prototyped a full-stack solution under time-constrained conditions.
